

Friends of the Park of the Canals!

The Park of the Canals is a national and international site because of the ancient Ho Ho Kam canals. But we love our park because it is where we have picnics, have fun with our families, learn about desert plants and the Ho Ho Kams.

Unfortunately, several years ago, the city removed the playground equipment from our park. With their current financial situations, they are not planning to replace the playground and recreation equipment.

Fortunately, Dave Bang & Associates (a national leader in playground equipment) and your friends and neighbors are going to restore our park with new, state of the art, playground equipment. To make this possible, we need to raise \$100,000 to purchase and install the playground equipment pictured above.

We are asking you to join us in restoring our park!

The Foundation for Mesa Parks and Recreation will hold and administer your tax-deductible donation for this project. Use the attached coupon for your tax-deductible donation to help our park.
